

umtaudit

Facilitate and optimize the auditing process by leveraging handheld computing technology. **UmtAudit™** software enables auditors to easily make assessments and **CREATE REPORTS INSTANTLY.**

UmtAudit™ is a new software program that allows you to perform paper free audits, eliminating the tedious task of data entry. Now you can **QUICKLY CAPTURE DATA** on a handheld computer. Easily transfer data with the click of a button and have direct access to reports. Professional reports can be printed on site* at the close of an audit and/or analyzed on a desktop computer.

The **UmtAudit™** program is the newest and most effective way to conduct a thorough assessment. Create the reports you need in the time that you want.

Save Time, Save Money

By providing instant reports the Auditor that uses **UmtAudit™** will save time and the company will save money by getting their results faster.

- ▶ Traditionally once an inspection was complete, the lead auditor needed to collect all of the observations and compile a comprehensive report from the piles of paperwork and scribbled notes. Now with the **UmtAudit™** solution, reports are available automatically, eliminating the entire post-audit stage.

Perform a More Thorough Inspection

Using **UmtAudit™**, inspectors are able to collect required data more efficiently, allowing more attention to detail during the assessment process.

- ▶ Instead of re-writing similar answers for numerous questions and spending countless hours transcribing indecipherable notes - **UmtAudit™** allows you to pre-program a wide variety of answers, or easily type your comments while on site. No more transcribing or data processing is required, leaving more time to focus on the assessment.

Facilitate the Auditing Process

Now, all of the information you need to perform and complete the study can be stored in the palm of your hand. This allows you to standardize your audits and makes the process easier and faster.

- ▶ Configuring **UmtAudit™** with your specific protocols saves significant time when training auditors. This also reduces the time employees spend compiling reports.

*Requires a compatible portable printer.

THERE IS AN EASIER WAY.

Because time is important
